

OVERCOMING FAITH SCHOOLS

NEWSLETTER FOR JUNE 2020

Treatment of children in villages and in the schools

The children, who live near the schools, come to schools for medical treatment. Our staffs are also vigilant to check on them and bring them treatment. Children are not allowed to travel and so we have to go to the villages to get them treated. Only those who live near the schools come to schools for treatment.

Faith Aono - Grade 5

Treating our children at our school

Treating our children our children in villages

Covid-19 Situation

Covid-19 has continued to hit the World and Kenya is not spared. The numbers of the affected now is over 10,000 people with almost 300 deaths. The problem is that the Country has very few testing kits and only about 10,000 people in a population of almost 60 million people. It is said, it will take 15 years to test all people in Country.

Kyle Samo - Grade 7

Fighting of Covid-19, guiding and counselling

Teachers and other staff visit children in the homes and replenish supplies of food, masks and soaps. All our children have been put in groups of 10 according to the villages. The teachers have all been assigned their groups. They make sure children are healthy and are obeying measures put forth by the ministry of Health for curbing Covid-19 like washing hands, wearing masks, keeping distance.

Grade 6**

Special session for disabled guardians and siblings living with children

The school set up two weeks special session for time with families with physical disabilities. Some of the activities carried out included teaching on Covid-19 and management of our disabled family members during Covid-19. In a nutshell, we put a smile on their faces by just showing them, we are there for them, we love them and we care

By: Teacher Collins Kipng'etich

Director Alice, Steve and teachers David, Kip Cliff gives soaps to Joshua's family. Joshua was born crippled and has 8 siblings all learns at our school. They live with their grand parents both above 80 years

Visiting with the family of Precious Zoe and her siblings their brother Nimord was born with cerebral palsy

Visiting with the family of Traves Mwanje, their brother Haron was crippled at a young stage. Haron was wants to join our school.

Ministry with street families

The school has secessions with street families most times we manage to recruit some of the street children, rehabilitate, mentor and admit them in our school.

Grade 7**

Director Alice with street children

Lessons from Covid-19

- Frequent hand washing has been increased and hygiene enhanced.
- Minor illness like colds and flus minimized
- We have learnt to be creative like crafting our own hand washing tools and stations in the villages.

Weaknesses

- Lack of sanitary towels for girls
- Lack of adequate/ clean water in the villages
- Floods havoc – some children and their guardians still misplaced
- Poor living conditions of the families like leaking roofs or almost collapsing roofs.
- Lack of sanitation facilities like toilets

Strengths

- Prayerfulness – we seeing God moving
- Aggressiveness of the staff in keeping their eyes on the children so that are treated as soon as they are sick.
- Guiding and counseling lessons
- Learning to be good stewards no taking anything for granted.
