## Reaching the children in the villages

With children out of schools in Kenya, the Director Pastor Alice and staff have to do all possible to minister to the children from the communities. All students at our schools have lumped into groups of 10 in different villages.

## Special Time

Special time with families of the school who have disabled members, the schools organize visitations and spend moments with the families that have members who are disabled. We set aside a weekend for each of the three schools for this specific moments and the results were remarkable. The staff shared lots of encouragement and helped in taking the disabled out of the houses, bathing them and just enjoyed staying with them.
